PROFESSIONAL SUMMARY

Software Engineer specializing in Full-Stack Web Development with experience building modern, responsive, and scalable web applications. Proficient in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, REST APIs, Git, and GitHub. Experienced in developing e-commerce platforms, optimizing user experiences, and delivering business-focused solutions. Skilled in utilizing Generative AI tools such as Gemini and Claude to streamline development processes, automate workflows, and enhance productivity.

WORK EXPERIENCE

Freelance IT & Web Developer | Jan 2023 – Present

- Developed and deployed responsive web applications using HTML, CSS, JavaScript, React.js, and TypeScript, focusing on performance and user experience.
- Integrated web applications with REST APIs and e-commerce workflows to support online business operations and scalability.
- Managed source code, version control, and project collaboration using Git and GitHub.
- Enhanced UI/UX through iterative, data-driven improvements, increasing usability and user engagement.
- Leveraged AI tools (Claude, Gemini) for coding assistance, debugging, and workflow automation, improving development efficiency.

E-commerce Projects | Jan 2024 – Feb 2025 | Amman, Jordan

- Managed end-to-end e-commerce operations on Amazon and Alibaba platforms, including product listings and store management.
- Optimized product listings using SEO strategies and AI tools, improving visibility and conversion rates.
- Created high-quality product descriptions and marketing content using AI tools to enhance customer engagement.
- Monitored sales performance and continuously refined listings and strategies based on data insights.
- Analyzed marketplace data to identify opportunities for improving sales and operational efficiency.

EDUCATION

Bachelor's Degree in Software Engineering | 2020 – 2024

Applied Science Private University – Amman, Jordan

SKILLS

TECHNICAL SKILLS

Frontend: HTML • CSS • JavaScript • TypeScript • React.js • Next.js • TailwindCSS

Backend: Node.js • Express.js • REST APIs • Python

Databases: MongoDB • SQL • Supabase

Tools: Git • GitHub • Docker • Vercel • Netlify

Oracle: Oracle APEX • SQL • PL/SQL

AI & Automation: Generative AI Tools (Codex, Claude, Antigravity) | Workflow Automation | Productivity Enhancement.

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Teamwork | Project Management | Client & Business Understanding.

PROJECT

AnasAura Anime Store | Personal E-commerce Project

- Developed a responsive anime e-commerce website using HTML, CSS, and JavaScript, optimized for desktop, tablet, and mobile devices.
- Designed and implemented a modern anime-themed UI/UX with custom red-and-black branding to enhance user engagement and visual appeal.
- Structured the platform around real-world e-commerce workflows, including product catalog presentation and customer interaction processes.
- Integrated a WhatsApp-based ordering system to streamline customer communication and simplify the purchasing experience.
- Applied responsive web design principles and performance optimization techniques to improve accessibility and usability across devices.
- Leveraged AI tools (Claude, Gemini) to accelerate development, generate content, and support UI/UX ideation.
- Utilized Git and GitHub for version control and project management throughout the development lifecycle.
- Built the project as a scalable concept targeting the Gulf market, incorporating e-commerce best practices and customer journey optimization.

PROFESSIONAL TRAINING

Oracle APEX Development Training – Completed comprehensive course through the Oracle MyLearn platform, covering application development, database integration, and low-code web applications.
